MEMORANDUM FOR THE CHIEF, MILITARY INTELLIGENCE SERVICE:
(Through Channels)

Subject: Establishment of Teleprinter

1. It is requested that a cipher type teleprinter be established without delay between the Military Branch (Room 2 D 742) and Pacific MIRS at Camp Ritchie, Maryland. Communications between these two agencies when they are in full operation will be continuous and daily and in the interests of efficiency, it is necessary that the outlets of this communication be in close proximity with the working personnel in each agency. This is to permit the ready and rapid consultation of records in each of the agencies and will avoid unnecessary duplication of work. The present communication channel for administrative purposes between the Commanding General, MITC, and the MIS will not suffice for the above purpose.

2. Only official communications dealing with the research of information and the arrangements in connection therewith will be transmitted over this channel.

J.R. LOVELL,
Colonel, G. S. C.,
Chief, Military Branch.
